EDUCATION

GIFT Autonomous, Bhubaneswar

2022 – 2026

B.Tech - Computer Science and Engineering - CGPA - 8.6

Bhubaneswar, Odisha

CAREER OBJECTIVE

- A highly motivated and detail-oriented aspiring Data Science Engineer, seeking to leverage strong analytical, programming, and machine learning skills to solve real-world problems. Passionate about turning data into actionable insights and contributing to data-driven decision-making in a dynamic organization.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Machine Learning: Basic understanding of regression, clustering, and classification techniques.

Deep Learning: Basic understanding of neural networks, TensorFlow, Keras, and PyTorch

Data Analysis Tools: Microsoft Excel, Power BI

Frameworks: Flask, Django, FastAPI

Others: NLP

INTERNSHIP

Skill Development Institute 🔗

May 2023– June 2023

Home Automation Developer

Bhubaneswar, Odisha

- Designed and developed a home automation system using microcontrollers and sensors to remotely control appliances and monitor home conditions through wireless communication.

PROJECTS

House Price Prediction 🔗 | Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

April 2024

- Developed a regression model using Python (Pandas, Seaborn, Scikit-learn) to predict house prices based on location, size, and other features..

Sentiment Analysis on Tweets or Movie Reviews 🔗 | NLP, TF-IDF

November 2024

- Implemented a sentiment analysis model using Python and NLP techniques to classify text reviews/tweets as positive or negative, achieving high accuracy with logistic regression and TF-IDF features..

Real-Time Face Mask Detection using CNN 🔗 | Deep Learning, CNN, OpenCV

August 2024

- Developed a real-time face mask detection system using Convolutional Neural Networks (CNN) with TensorFlow/Keras and OpenCV, achieving high accuracy in classifying masked vs. unmasked faces.
- Implemented data augmentation and dropout regularization to improve model robustness and prevent overfitting.

CERTIFICATIONS

- Successfully completed a hands-on Big Data workshop, gaining practical experience in data processing and analytics using tools like Hadoop and Spark.
- Achieved Elite Certificate in NPTEL Exam for Programming, Data Structure and Algorithm using Python course.[2024]
- Achieved Elite Silver Certificate in NPTEL Exam for Introduction To Internet Of Things.[2025]
