EDUCATION

GIFT Autonomous, Bhubaneswar

2022 – 2026

B.Tech - Computer Science and Engineering - CGPA - 8.3

Bhubaneswar, Odisha

CAREER OBJECTIVE

- Seeking an entry-level opportunity in Artificial Intelligence and Machine Learning where I can apply my skills in Python, Deep Learning, and Generative AI to develop innovative solutions that make technology more human-centric and impactful.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL

Data Science And Machine Learning: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras.

Generative AI And LLMs : LangChain, Lang-Graph, RAG, Open AI API, Hugging Face, Google Gemini, Prompt Engineering,

Data Analysis Tools: Microsoft Excel, Power BI

Databases: MySQL, SQLite

Web Frameworks: Flask, Streamlit

INTERNSHIP

DeepSurge AI Tech Pvt.Ltd.

Sep 2025– December 2025

Trainee AI Application Developer

Bhubaneswar, Odisha

- Developed a Road Quality Monitoring System using Computer Vision and ML models. Built and optimized CNN-based models with OpenCV and TensorFlow for road defect detection and deployed them via Flask/Streamlit.

PROJECTS

AI Resume Screening | Python, LangChain, Hugging Face

October 2025

- Developed an AI-powered resume screening tool using LangChain that scores candidate CVs against HR-written job descriptions. If the score exceeds a threshold, the system automatically sends a notification email to shortlisted candidates, streamlining the recruitment process..

Laptop Price Prediction using ML | Python, Pandas, NumPy, Matplotlib, Scikit-learn

April 2024

- Developed a regression-based Machine Learning model to predict laptop prices using specifications like RAM, processor type, storage, and GPU. Implemented data preprocessing, feature engineering, and model evaluation using Python, Pandas, Scikit-learn, and Streamlit for deployment..

Multi-Agent RAG System for Natural Language Querying of a Database |

December 2025

- Developed a Multi-Agent RAG system that enables natural language querying over relational databases.
- The system uses specialized agents for query understanding, SQL generation, and result validation to deliver accurate, context-aware responses.

CERTIFICATIONS

- Winner, DeepSurge Ai pvt.ltd Internal Hackathon – Recognized for developing innovative AI/ML solutions and demonstrating problem-solving skills in a competitive environment.
- Achieved Elite Certificate in NPTEL Exam for Programming, Data Structure and Algorithm using Python course.[2024]
- Achieved Elite Silver Certificate in NPTEL Exam for Introduction To Internet Of Things.[2025]
